Catalog essay, GRID exhibition, Arnot Art Museum, 1987  
Catalog essay, Post Currents exhibition, SUNY-Buffalo, 1988

## EXPERIMENTAL TELEVISION CENTER LTD.

The Center began in 1971 as an outgrowth of a similar program that I organized on the SUNY-Binghamton campus in 1969. The Center is not-for-profit and offers residencies to artists from throughout the United States. The purpose of the residency program is to provide an environment where artists can learn to use visual and aural electronic analog and digital tools and produce works. Tapes produced at the Center have been exhibited throughout the Americas, Europe and Asia. The Center also serves as a sponsor for artists who are seeking support for projects, and supports the development of electronic tools for artists use. In 1988 the Center received an Indie award from the Foundation of Independent Video and Filmmakers as a "provider of an oasis for innovation in the electronic media arts". The Center is supported by the New York State Council on the Arts, the Pennsylvania Arts Council, the National Endowment for the Arts and artist's user fees.
